
Protecting our most vulnerable Comprehensive workplace violence training for healthcare workers in Maryland

Unique Benefits:

- **Tailored Curriculum:** Our program is specifically designed for minority, low literacy, limited-English speaking, disadvantaged, underserved, low-income, and other hard-to-reach, at-risk healthcare workers in Maryland.
- **Expert-Led Training:** Developed by professionals with extensive experience in healthcare and workplace safety, our training addresses the unique challenges faced by vulnerable worker populations.
- **Multilingual Resources:** We provide training materials in multiple languages and at various literacy levels to ensure accessibility for all participants.
- **Supportive Environment:** Our program emphasizes a supportive and inclusive environment, fostering trust and encouraging open communication among participants.

Problems and Solutions:

- **Problem:** Healthcare workers in minority and disadvantaged communities often face higher rates of workplace violence due to factors such as understaffing, lack of training, and communication barriers.

Solution: Our comprehensive training program addresses these issues by providing practical strategies, de-escalation techniques, and communication skills tailored to the needs of at-risk workers.

- **Problem:** Limited access to resources and support for non-English speaking and low-literacy workers can leave them vulnerable to workplace violence.

Solution: We offer multilingual training resources and adapt our content to various literacy levels, ensuring that all workers, regardless of language proficiency or literacy, receive the support they need to stay safe.

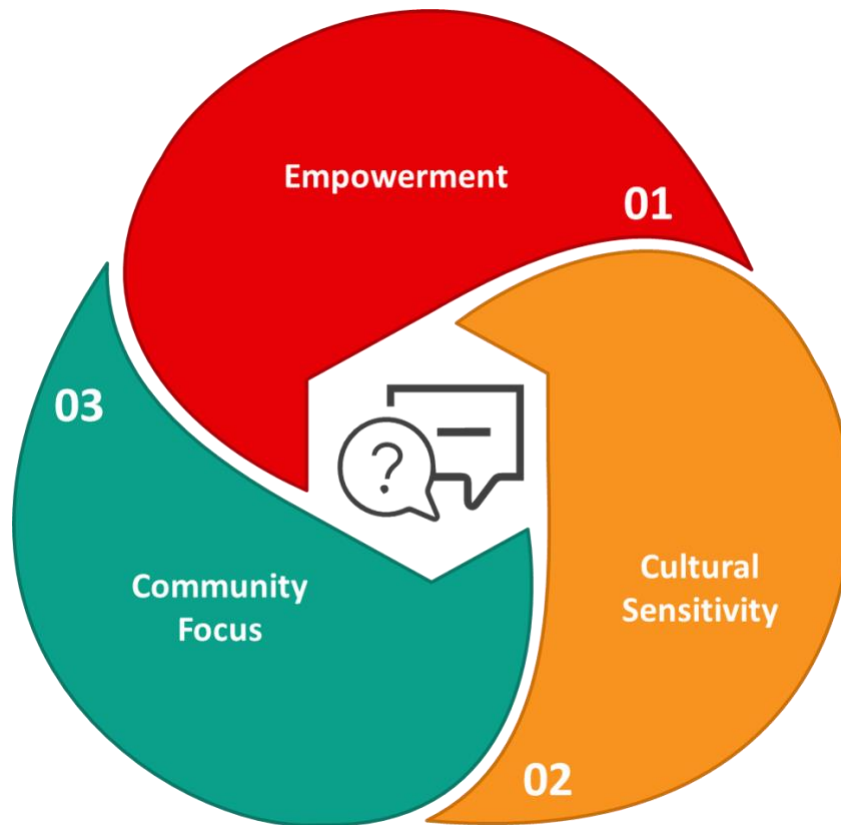

- **Problem:** Lack of awareness and understanding of workplace violence prevention among healthcare workers and their employers.

Solution: Our program raises awareness about workplace violence, its impact, and prevention strategies, fostering a culture of safety and respect within healthcare settings.

Why Choose Our Program?

- We empower healthcare workers with the knowledge and skills they need to protect themselves and their colleagues.
- Our program respects and integrates the cultural backgrounds and experiences of our participants, making the training relevant and impactful.
- By targeting healthcare workers in Maryland, we address local needs and build stronger, safer communities.

Invest in the safety and well-being of your healthcare workforce with our comprehensive workplace violence training program. Together, we can create a safer, more inclusive environment for all.
